In 1915, a group of visionary women came together in The Hague, Netherlands, at the International Women's Congress against World War I. In doing so they founded the Women's International League for Peace and Freedom.

The WILPF Academic Network now presents the WSW Webinar Series, to herald WILPF's 100th Anniversary in 2015 to continue the work of our foremothers.

The second episode in this series is hosted by our very own Joy Ada Onyesoh and tackles the topic of Disarmament in Africa from a Gender Perspective, particularly in Nigeria.

Joy is the President of WILPF Nigeria and the Executive Director of the 'Women for Skill Acquisition, Development and Leadership Organisation'.
